BOARD'S FRIENDS WILL FIGHT DISSOLUTION ELECTION JAN. 30

WATER DATA FOR PEOPLE IN PLAIN MANNER PLANNED

Friends of the Richmond Water District are going to resist the dissolution campaign instigated by the Peoples Water company. They are going to convince the people of the district that it is against their interests to dissolve the organization and thus place in the hands of the water company a club whereby they may exact any rate for water which they may see fit to impose.

That is the gist of the sense of the meeting of the directors of the water district held last night. Further than that the directors do not know just what will be done. It is the purpose to take the people into their confidence and enlighten them on just what has been accomplished in the way of research work and then let them decide what is to be done in the matter.

Since the engineering firm of Dockweiler & Cragin have been delving into the Marin watershed supply a large volume of data has been accumulated. This is to be given the people in plain language, so that all may understand its import. They expect to show the people that the Marin project is not only practical, but highly important and profitable to the people of this city and that they can save during the life of the bond issue enough money to pay for the plant and that water can be sold to the people of this city at about half the

MISSING GIRL'S FATHER IS HERE IN SEARCH

Here Is Girl's Story of Fight In Local Hotel

SAN FRANCISCO, January 10.—Following is Lolita Fiellen's story of her actions while in company with James Pink whom the police are now seeking:

"I left Sacramento Sunday to go to the convent at Berkeley, which I attended last year. I had a couple of dollars. Some of it was spent for candy and I bought something to read.

"I never talked to a man on a train before, but when the train was put on the ferry at Carquinez Straits, two men came up to me. One said it was pretty scenery and talked about the weather.

"When we got to Port Costa we went back to the train together. The second man went away and took his suit cases. James—Mr. Pink stayed with me.

"I told him I was going to school at Berkeley. When we got to Richmond he said it was Berkeley. We got off. Then I saw it wasn't Berkeley. He seemed surprised, but said he had business there and would take me to Berkeley in a little while. Instead of attending to any business, he took me to a hotel.

This was the Nucleus hotel, 3835 San Pablo avenue, Richmond, where the couple were registered as J. Pink and wife of Stockton.

"That evening we went to the movies and got back about 9 o'clock. I had to fight him. I fought a long while—hours. Then I couldn't fight any more.

"We went to Oakland Monday. I don't know where I spent Monday night. I got a room myself. We came to San Francisco yesterday about noon. The man left me at the ferry, where he checked my things.

"I was afraid to go home. I was afraid to talk to anybody. I walked and walked, to the park and a lot of other places. I went to the beach.

"There was no money left to buy anything to eat so I went hungry. I kept on till I couldn't go any farther. I was so tired. I saw a garage lighted, so I went in and asked if I could sit down there a while."

SAN FRANCISCO, Jan. 10.—Lolita Feillen, missing 14-year-old girl, was today found wandering in a dazed condition on Golden Gate avenue by a taxi cab driver. She stated at the city prison that she was famished for something to eat. An accurate description of the man who is said to have accompanied her was given to the police by the girl.

Thomas Langdon, stepfather of 14-year-old Lolita Fiellen, whose sudden disappearance in this city Sunday afternoon has caused a state wide search on the part of the police, arrived in this city from Sacramento last evening to furnish an accurate description of the girl to the local authorities.

The girl's mother, Mrs. Thomas Langdon, is prostrated with grief at her apartments, 314 J street, Sacramento.

SEEN WITH MAN.

The young girl, who was unusually pretty and well developed physically, was last seen as she left the train at Richmond in company with a young man whom she met on the train. The train men say that the couple appeared to be acquainted and were laughing and talking as the crossing was made at Port Costa.

NOT IN OAKLAND.

Although several girls answering to the description of the Fiellen girl were reported to have been seen on the streets of Oakland the police have so far been unable to fasten an accurate identification on any of the reports.

WILL CONTINUE SEARCH.

Langdon stated last evening that he would remain in Richmond and the bay district until his daughter is located.

Police headquarters today reported nothing new in the search. They say there is hardly a possibility of her being in Richmond. It is their opinion that the girl and her male companon after leaving the Southern Pacific train here caught a street car for Oakland or San Francisco.

CITY CLERK HAS A COPY DEVICE

Faris has received a new copying device which greatly increases the speed at which copying may be made. The new device is called a "Line-a-time." It is so arranged as a typewriter that a ruler underlines each new line of the copy to be made. Deputy City Clerk John Deadrich has found the new device quite a time-saver in the copying of ordinances and lengthy resolutions.

CAREFUL ATTENTION GIVEN TO ALL POINTS BY BOARD LAST NIGHT

Six months of careful charter framing ended for the Board of Freeholders last evening when April 3 was set as the date when the new charter shall be voted on by the people.

In completing their work on the new charter the freeholders believe they have arranged a charter for this city which should meet all present conditions. The old charter framed in the early stages of the city's growth is said to be obsolete in many respects.

The charter will be officially signed by the members of the board at a meeting to be held Friday evening and filed the following day with the city clerk.

Fifteen days have been allowed the city council by the board for submitting the charter for publication. Immediately following its ratification by the people it will be presented at the legislature.

New officers as provided in the new charter will be voted on May 28.

IMPORTANT CLAUSE.

One of the most important clauses next to that of the size of the council in the new charter is the indeterminate franchise clause which the board adopted by a vote of 9 to 3 last night. This section of the charter, besides aiding corporations to commence a re-financing of their company, also enables the city with six months given notice to buy any public service company doing business in Richmond.

MUCH ARGUMENT.

Much argument both for and against the new franchise section to the charter was made by the members, it being finally decided that if included in the new charter it would be of great benefit to the city.

This was especially stated by Harry Brown, traffic manager of the San Francisco-Oakland Terminal Railways company, who said: "At the present time our company is just about two blocks ahead of the sheriff. Unless Richmond, like Oakland, Berkeley and Alameda, makes us some sort of a concession in the matter of finances, our service will naturally result to the detriment of all cities concerned. Before our company can re-finance, which will mean the bringing of some $3,-000,000 in New York money to the coast to be spent on our railway system it will be necessary for our franchise agreements throughout the east bay cities to be uniform. As I see it, gentlemen, something which will benefit our company will certainly benefit Richmond, especially when public opinion is our greatest asset.

"As you all know, we are getting by at the present time on a shoestring. The improvements which we make are of such character as not to warrant them being permanent because we have not the money to make them with. With a uniform franchise clause in charters of all the east bay cities it will be an easy matter for the San Francisco-Oakland Terminal Railways company to re-finance and give better service to its patrons."

Garrard—"That's the way I see it. Something which benefits a public service corporation, will in turn benefit the city."

Ludewig—"I would rather leave the present section in the charter as it has been found to be satisfactory to public service concerns."

Tom Conn—"I agree with Mr. Ludewig in that respect."

Brown—"The only thing about

RUSSIA AND JAPAN

Speculation concerning the alignment which will be produced by the recent Russian-Japanese compact, seems to be colored by consideration that it is the main proposition, and that Russia's European engagements are minor matters. Whereas the fact is that Petrograd was determined to the new friendship by considerations of European policies.

Indeed the Far Eastern adventure of Russia which culminated in the clash with Japan, developed from the ascendency of the Germany party in the czar's court. Berlin directly encouraged the grand dukes to the Far Eastern experiment. The temporary coalition of Germany, Russia and France, that dictated to Japan the terms of her settlement with China in 1895 was a piece of that policy. The governing idea of Berlin was to distract Russia's attention from western affairs and absorb her in eastern complications.

The czar went to war in Manchuria in 1904 with the word of the kaiser for his insurance in Europe, exactly as Bismark went to war in 1870 with the guaranty of the czar as his reliance. As long as Russia persisted in the war Germany was her friend; but as soon as she desisted Germany became her opponent, because Russia's agreement with Japan meant that the great Slavic empire would turn to western affairs again.

If the war was a military defeat for Russia, it was a diplomatic defeat for Germany. Since 1905, the kaiser has had Russia in Europe on his hands. When Russia desisted in the Far East and turned her attention to Europe, she ceased to be the potential enemy of Great Britian, and became, instead, England's potential friend. The Russian-British agreement in Persia, and the formation of the triple entente by Russia, France and Great Britian, were natural consequences flowing from the treaty of Portmouth.

Russia is now definitely committed to the west. Promised Constantinople and the Dardanelles, she will be absorbed for a generation in establishing her new front on the Mediterranean, if she is able to conquer that front. Her agreement with Japan insures protection to her Far Eastern interests. Her real alliance will be with France, her banker, and Great Britian, whose fleets command the seas and whose guns dominate the Straits of Gibraltar.

If the allies win, Great Britian, Russia and Japan are likely to divide Asia, and Great Britian and France will divide Africa. When the "yellow peril" comes, if it ever does come, France Russia and Great Britian are much more likely to act in unison with the United States against it than they are to divide in its presence.

Gems worth $51,000,000 have been imported in 1916. That may not sound like many millions when compared with the total "sales" of stocks in Wall street, but it equals the peace expenditure of Norway or Greece, or the total assessment value of an American city like Harrisburg or Utica. Or it would buy 10,000 nice little farms.

Virginia has lost Thomas F. Ryan as a citizen because it compelled him to pay $337,000 in back taxes. But it seems to have found a satisfactory substitute source of revenue in congressional pork bills.

THE FRENCH SYSTEM

Liberty, Equality, Fraternity!

Fighting in the French army are thousands upon thousands of variously tinted men from the so-called races upon earth—yellow Tonkinese and Anamese, jet black Senegalese, brown Kanakas, swarthy Moroccans, Mulattoes from Martinique—fighting for France, giving blood and lives for France.

No compulsion about it; they came voluntarily. France was in danger; they loved France.

In Tahaiti, Society islands, far down in the Paeific, when the natives heard of the war, they assembled and petitioned to be allowed to go to the front and fight for France.

French colonies, all these are. It is the first time that what are called "inferior peoples," "aborigines," and "subject races" have rushed instinctively to the defense of the power supposed to have subjugated them.

But "inferior peoples!" In the French system there are no "inferior peoples." All the peoples of all the lands where the French flag waves are free, equal and brothers. They are citizens of the French republic, exactly like all other citizens thereof.

That is why there is now this extraordinary and touching response.

The colonial policy of the French republic has covered the name of France with imperishable glory. France has been not only kind and good to her aborigines. She has made them citizens, equal and free! Now in her hour of need they come to lay down their lives for her, France the broad-minded, France the democratic!

Liberty, Equality, Fraternity—the noblest motto nation ever had. Wonderful words and wonderful talisman! It is the inspiration back of that thought that makes France beloved of all souls everywhere that are free, and makes her safe now behind the strong arms of men of all the so-called races that have been touched by her fire—Liberty, Equality, Fraternity!

With alcohol barred in Russia and put on the limits in Germany, with a prohibition wave sweeping Britain, and with the "dry" army in America looking seriously to the conquest of New York, it seems that John Barleycorn should be next to make a noise like a peace proposal.

Germany might have less difficulty now in convincing French Socialists that this is "the Czar's war" if in 1914 she had attacked the Czar instead of driving through Belgium straight at Paris.

According to the Entente peace terms, as forecasted by the London Spectator, the Kaiser will be permitted to retain his undershirt after the allies have removed the buttons.

As a war measure in Germany it is proposed to have towns contract with producers for butter, potatoes, milk and meat. Would that be a bad peace measure for American cities?

Whether right or wrong, the Oklahoma bishop who calls movies a harmful and damning agency" has the courage of his convictions.

If plainer living makes far better health, the 1916 statistics are likely to put a crimp in medical schools.

EDNA THE CHARMING.

Edna Goodrich, Morosco-Pallas star in Paramount Pictures.

Because of her personality, her beauty and her ability to wear clothes Edna Goodrich has been called time and again "Edna the Charming." Her appearance in Paramount Pictures during the past year has added wonderfully to her popularity, first in Lasky productions and later in Morosco-Pallas productions.

EDNA GOODRICH, coming to the Richmond Theater January 15 and 16 in "The House of Lies."

INSIDE PEEK AT INNER WORKINGS OF BOARDING SCHOOLS AT THE RICHMOND

Lies, like bricks, must be piled one upon the other in order to construct any semblance of an edifice of truth. One single lie, like a single brick, is comparatively useless, except for the purpose of hurling it at someone else. But even the chances are that more will have to follow unless the aim was exceptional.

Upon this very sound philosophy of life there is built a screamingly funny motion picture farce entitled "Miss George Washington," in which delightful little Marguerite Clark stars for the first time since the renewal of her contract with the Famous Players Film company to continue in its productions on the Paramount program. It is the featured attraction at the Richmond Theater today and tomorrow.

Forsaking all semblance of truth for the nonce, Miss Clark becomes the ally of deception, as the result of telling one untruth in order to deceive the head of the private school in which she is a pupil. The richly humorous side of the situation is the fact that she is so innocent in her appearance that she has deceived her mother and others into believing that she has never uttered a syllable of fiction since the day she was born. As a result of this erroneous impression, she is presented with a truth medal. But her immediate friends—who know her ability—have dubbed her "Miss George Washington" and they concede to her without a dissenting voice the all-around fibbing championship of the world. It might be said in extenuation of the girl's propensity for deception that her father is a diplomat and that she comes honestly by her ability.

"THE YELLOW PAWN"

Cleo Ridgley and Wallace Reid, the clever young Lasky stars, will be seen at the Richmond Theater on Friday and Saturday in the Jesse L. Lasky production of "The Yellow Pawn." In this picture one of the most unusual sets ever seen at the Lasky plant is being used—the interior of what is known as the duplex studio, similar to the ones used by the leading New York artists. The set, instead of having just the usual three walls, has all four. The entire set is of solid wood paneling, hand carved.

GRAND PRIZE WHIST PARTY AT ST. PAUL'S

A grand prize whist party will be held by the ladies of St. Paul's Catholic church in the church assembly rooms on the evening of January 29. Rev. Father Porta has secured a number of beautiful prizes to be given away at that time.

The committee in charge of the affair consists of Mrs. Mary Roberts, Mrs. Mary Lucey, Mrs. Emma Moltoza and Mrs. William Mattos.

IF you want the best pipe tobacco on earth, just travel around lookin' for it, then—drop into the shop on the next corner an' ask for some VELVET.

Velvet Joe

THERE Is No Better Pipe Tobacco—than Velvet. We honestly believe that. Smoker after smoker has told us so. Before you agree or disagree, we ask you to put Velvet to any test that will convince you *personally.*

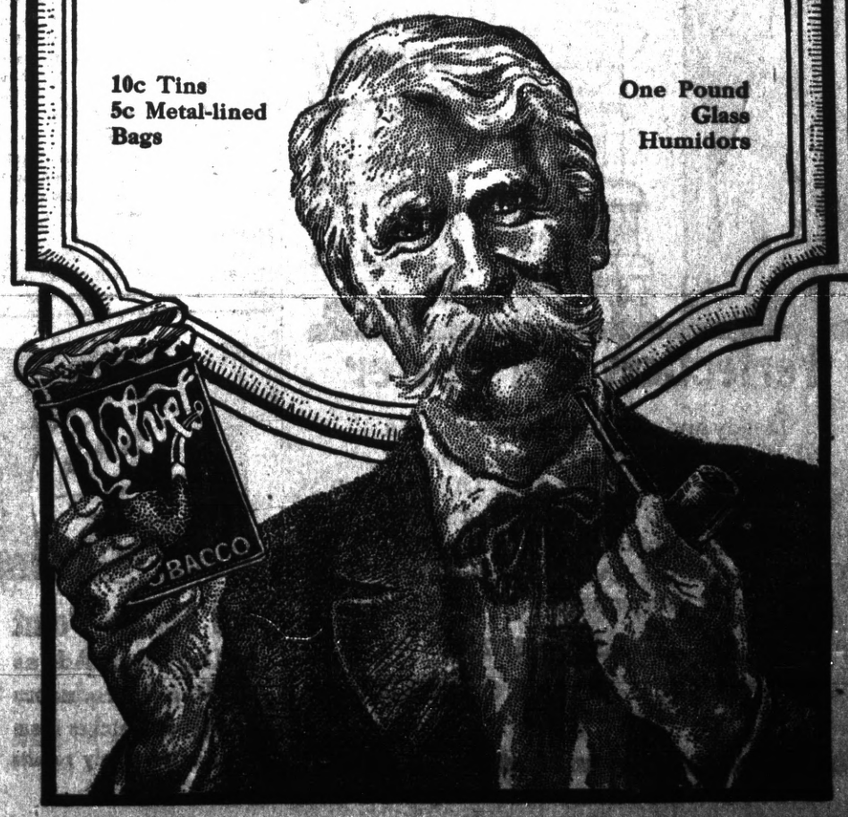

Velvet is the best Kentucky Burley tobacco—the variety American pipe smokers have agreed to be the world's finest pipe tobacco and the natural qualities of this tobacco have been brought to perfect maturity by two years of ageing in wooden hogsheads.

We challenge you to compare Velvet to-day with any pipe tobacco at any price?

CITY CHARTER BEFORE PEOPLE ON APRIL 3

(Continued From Page One)

leaving the present franchise clause as it is forces us to make application to the city council and delays us just that much. We are desirous of commencing our new improvements immediately."

Lang—"There was a time not far back when the people were opposed to granting anything to corporations, but I think the average fair-minded citizen who has the upbuilding of the community at heart is willing to concede a few favors to corporations, especially those giving public service with the idea in view that they will in turn help the city. As I see this new franchise clause, and I believe that I have given it careful consideration, it will benefit the city in this respect, that should the street car company, or any other concern, fail to give proper service, the people by giving a six months notice may take the corporation over."

BOARD VOTES TO ACCEPT.

Despite the rumors current about the city yesterday that a number of the members on the board were going to vote against the new charter, the freeholders present last night voted unanimously to sign the charter. To make absolutely certain of this point Attorney W. J. Locke, who has been assisting the board, asked:

"Is there any points in the new charter against which any of the members have the slightest of objections?"

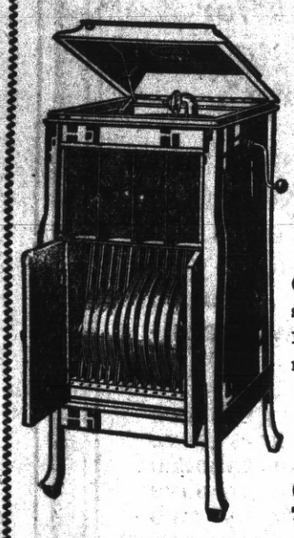

Hearing no dissenting answer, Chairman Ludewig ordered the attorney to prepare a complete copy of the new charter to be presented for the signatures of the majority of the board Friday night.

BOARD'S FRIENDS WILL FIGHT DISSOLUTION ELECTION JAN. 30

(Continued on Page Four)

rate which they are now paying the Peoples Water company for the same service. And this is not taking into consideration the fact that the Marin water is soft and pure and of a quality not excelled in any other locality in the state.

The directors of the district will hold another adjourned meeting on Friday evening and it may be they will call their bonding election at that time, but whether they do or not, they are not going to calmly and passively submit to the Peoples Water company putting them out of business, nor will the people stand idly by and see such an outrage perpetrated. Friends of the water district argue that the only club the people of Richmond have to defend themselves against the rapacity of this gigantic public serive corporation is this organization and they are not going to be so foolish as to surrender their sole weapon of defense without a struggle.

ALAMEDA ADOPTS CITY MANAGER

ALAMEDA, Jan. 10.—Following the lead of San Jose the city of Alameda yesterday adopted the commission form of government with provision for a city manager. The vote was light and the result was a surprise, as it was hardly expected by the general public that the issue would carry. It won by a majority of 331 votes, as follows:

Yes, 2,112.

No, 1,781.

Yesterday's ballot was the lightest cast in the city, being 3,904, about one-third of the usual poll. The total registration of Alameda is 12,000.

SCHOOL BOARD CLERK AT ALBANY MISSING

ALBANY, Jan. 10.—Fear that a mental breakdown may be responsible for the disappearance of Gratton Miller, clerk of the board of school trustees, was expressed here today. Miller disappeared yesterday, leaving a wife, who is inconsolable, and two small children. City Clerk W. G. Nickelson declared today that Miller took too much on his shoulders and was of a nervous temperament. He is authority for the statement that Miller's disappearance may be found to have been caused by a breakdown.

GLASS OF WATER BEFORE YOU EAT ANY BREAKFAST

Wash poison from system each morning and feel fresh as a daisy.

Every day you clean the house you live in to get rid of the dust and dirt which collected through the previous day. Your body, the house your soul lives in, also becomes filled up each twenty-four hours with all manner of filth and poison. If only every man and woman could realize the wonders of drinking phosphated hot water, what a gratifying change would take place.

Instead of the thousands of sickly, anaemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere.

Everyone, whether sick or well, should drink each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.—Advt.

SACRAMENTO, Jan. 10.—Harry Rice, who arrived here last week from the county hospital of Contra Costa at Martinez, was sent back to his home in that county yesterday. The district attorney's office received word from there that they would accept him.

He came here destitute and sick and applied to Miss Mary Judge of the Associated Charities for help. He said he had been supplied with a railroad ticket to Sacramento by the authorities at Martinez against his wishes as he wanted to go to Oakland, where he has friends that will help him.

The officials at Martinez admitted to the district attorney's office that they supplied him with a ticket to this city, but that they would take him back and send him to his old home.
